PL00134 - City Hall Public Realm Environmental Improvements, Barker's Pool, Sheffield.
Sub Contractor Reference

With regard to the above, I would like to commend John Mee Construction on their professionalism and attitude towards their involvement within the scheme.

Having been brought in as a specialist sub-contractor to install ducts throughout a very congested site in terms of existing Statutory Undertaker's apparatus and access, John Mee Construction worked hand in hand with the main Contractor (Wrekin Construction) within the spirit of cooperation and joint ownership of the scheme.

John Patrick Mee for John Mee Construction brought to the scheme's Construction Phase Team an additional member focused on achieving a quality job offering advice and acting on requests with enthusiasm. He assisted Wrekin Construction in determining existing and proposed routes for Statutory Undertaker's apparatus/ducts together with planning and programming the works.

Yours Faithfully,

**Paul Johnson
Site Engineer**
