Barkers Pool and Civic Hall Precinct
Sub Contractor Reference

I would like to offer thanks to John Mee Construction for their help with a complex project in the city centre of Sheffield. The scheme involved the installation of several banks of ducts for the major utility companies throughout the centre of Sheffield.

The approach we took when appointing a sub-contractor was to review from a health and safety perspective who could install the ducts with minimal risk to the existing apparatus. John Mee Construction brought to us their service locator that appeared to be Ideal. This subsequently proved to be the case with thousands of meters of duct installed and not a single cable damage experienced.

Finally I would like to offer thanks to John Patrick Mee who supervised his teams on site, worked closely with ourselves to identify service positions and plan the route before executing the installation with minimal disruption to our other activities which continued to happen.

With Thanks

Richard Kaye
Senior Site Agent
